AmericanChecked INC.
Background Screening Solutions®

Accurate® Biometrics
Live Scan Fingerprinting & Identity Services

EASY TO USE

FAST TURNAROUND

COMPLIANT WITH FBI SECURITY REQUIREMENTS

Accurate Biometrics is a certified woman-owned small business that provides high performance electronic fingerprint solutions.

By integrating exclusively with AmericanChecked Inc., a Native/woman-owned company, Tribes and Tribal entities are able to manage all their background screening and fingerprinting needs within one seamless platform.

Accurate Biometrics accepts several options for fingerprint processing and transmission, including live scan, FD 258 ink card submission, as well as the purchase and lease of FBI certified fingerprint systems. The Accurate Biometrics Live Scan Enterprise's (ABLE-X) in-house, proprietary software is a cost effective and customizable end-to-end solution that can be tailored to meet each client's needs.

Our scanners are easy to use and won't capture a print unless it meets specific requirements. It is how the system has a *less than 1 percent rejection rate.*

Both Accurate Biometrics and AmericanChecked have built reputations on offering fast, reliable information. Once fingerprints are channeled directly to the FBI, *results are delivered within 24 hours.*

PROTECTING THE FUTURE
Our integrated service is approved to channel fingerprint submissions directly to the FBI specifically for Tribal Head Start programs.

HOUSING
Approved to provide fingerprinting services for the Native American Housing Assistance & Self-Determination Act of 1996.

GAMING SERVICES
Approved by NIGC and the FBI to provide fingerprinting services for Gaming Commissions and Regulators.

Accurate Biometrics focuses on providing premier electronic fingerprint capture, real-time transmission (state and federal submission types), storage and database reporting to meet the increasing number of applicants requiring a fingerprint-based criminal history record check. For more than 16 years, Accurate Biometrics has responded to the needs of its customers to become a leader in the field of electronic applicant fingerprint processing.
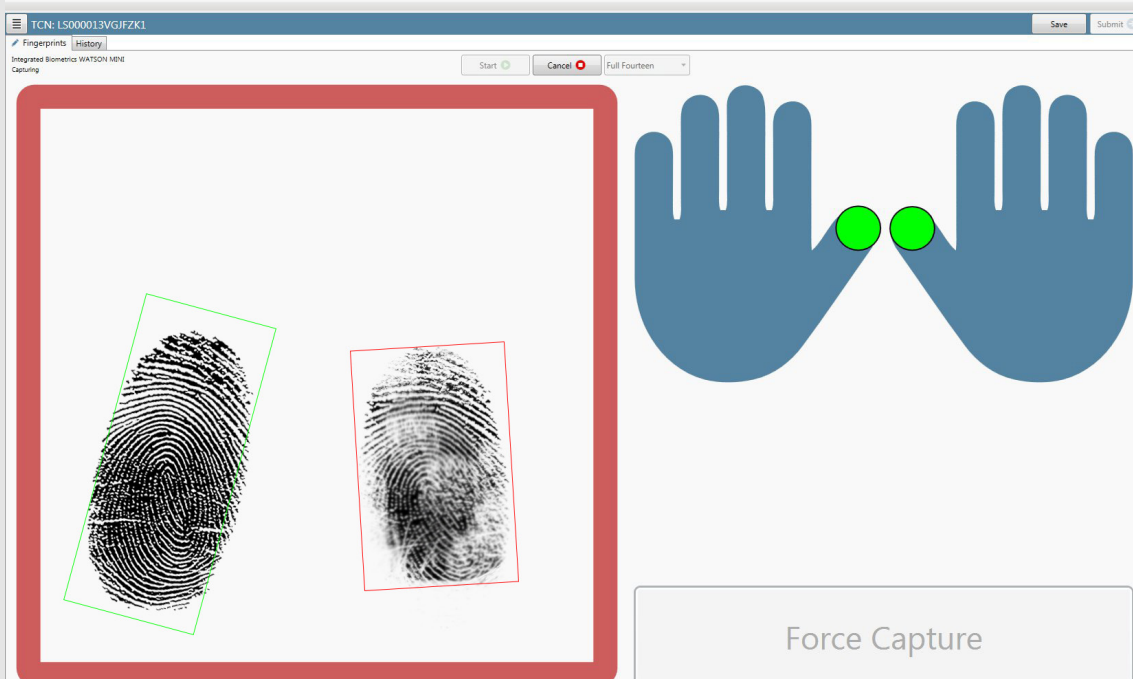

When AmericanChecked and Accurate Biometrics integrated platforms, two companies clicked together as one unit. Clients enjoy the expanded benefits of two companies, but only have one point-of-contact for questions, one invoice and system to order from, both saving time and money.
